***Acknowledgement***

Receipt is acknowledged of the Amendment filed May 9, 2005.

***Reasons for Allowance***

Claims 15-34 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Hamasaki et al., taken alone or in combination of other references, does not teach or fairly suggest a circuit comprising, among other things, a sampling circuit capable of storing a charge of a sample having a switch (claims 15 and 34); and the buffer includes a source-follower transistor adapted to generate an output signal from an input signal, a replica transistor adapted to generate a replica signal from the input signal, and a level shifting circuit that provides a level-shifted replica signal at a terminal of the source-follower transistor (claim 18), as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Contact Information***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel D. Chang whose telephone number is (571) 272-1801. The examiner can normally be reached on Monday through Friday.
